ROTAX[®] ENGINES

ROTAX 2-STROKE ENGINES

Heart-thumping power, lightweight design, proven reliability – E-TEC direct-injection engine technology delivers the most sought-after attributes in the snowmobile industry.

Our lineup of 2-stroke engines now includes the brand-new 600 EFI (Electronic Fuel Injection) engine. Reliable, affordable and easy to use, it's an entry-level engine that far exceeds what you thought an entry-level engine had to be.

With E-TEC engine lineup you also get:

- Industry-leading fuel economy²
- Excellent oil economy
- Virtually no smoke or smell
- Light, linear throttle pull
- Automatic summerization process

850 E-TEC TURBO R

- 180 hp up to 2400 meters¹
- World's first factory-built 2-stroke turbo

850 E-TEC

- 165 horsepower¹
- Down to 12.3 L/100 km²

600R E-TEC

- 125 horsepower¹
- Down to 11.3 L/100 km²

E-TEC engines are the best-selling 2-stroke engines in snowmobiling.³

ROTAX ACE™ 4-STROKE ENGINES

With the Advanced Combustion Efficiency (ACE) family of engines, BRP engineers optimized the combustion system, reduced mechanical friction, and freed intake and exhaust breathing. The result is the most efficient engines in snowmobiling. Not only are they efficient, they're a pleasure to operate and own. Very little maintenance is required; they run smoothly and produce a nice, solid—yet quiet—sound.

900 ACE TURBO R

- Rotax-designed turbocharger
- 180 horsepower¹
- Cable-activated throttle with reconfigured iTC

ACE engines are the best-selling 4-stroke engines in snowmobiling.³

INTELLIGENT THROTTLE CONTROL

Standard on the ACE engines, the iTC™ system delivers a whole different snowmobiling experience.

- **Driving Modes:** A button on the console enables you to select one of three driving modes. Standard mode ensures a smooth start and linear acceleration; Sport enables full performance and quicker acceleration; ECO® limits top speed and acceleration rates for a more relaxed, fuel-conserving ride.
- **Finger Throttle** (only on 600 ACE and 900 ACE engines without Turbo): The throttle block can be rotated forward for use as a finger throttle, if preferred. Great for changing hand positions on a long ride and for more control through bumps.

¹ Observed metric horsepower based on internal dyno test performed in optimal conditions.

² Data based on internal engineering trail testing.

³ Based on retail sale results as of December 31, 2019.

Experience the advantage of XPS. Oil and care products engineered to extend the life of your ride, tested in the world's harshest conditions, and designed to optimize your vehicle's performance. Learn more at XPSlubricants.com

HOW TO MEASURE

SIZING CHART

HEIGHT: without shoes, standing with heels and back against a wall.

HEAD: around your head, from the center of the forehead, above the ears and over the natural bump at the back of the head.

ARM LENGTH: let the hands hang down on the side in a slightly bent position. Measure from the center of the back of your neck, along the length of your arm, to the wrist.

CHEST: measure under your arm, around the fullest part of your chest.

WAIST: immediately below the lowest rib.

HIPS: across the fullest part of the seat.

INSEAM: without shoes, from crotch to the floor.

GLOVES: Measure palm width.

BOOTS: Foot length from heel to toe.

- For best results, have someone else take measurements.
- Measure body in underwear.
- Tape must be snug but not tight.
- If measurements fall between two sizes, order the larger size.

For advertising purposes, some scenes depicted in this brochure include professional riders and racers executing maneuvers or performances under ideal and/or controlled conditions. Do not attempt any of these or any other risky maneuvers if they're beyond your level of riding ability, as well as your understanding and respect for the performance of your snowmobile. Always ride responsibly and safely. Always observe applicable local laws and regulations. Always wear the appropriate protective clothing, including a helmet. And remember, if you're going to drink, please don't ride. Because of its ongoing commitment to product quality and innovation, Bombardier Recreational Products Inc. (BRP) reserves the right, at any time, to discontinue or change specifications, prices, designs, features, models or equipment without incurring any obligation. Some models depicted herein may include optional equipment. Prices are based on Manufacturer Suggested Retail Prices. Dealer may sell for a different price. Taxes are not included. BRP is a proud member of the SSSC (Snowmobiling Safety Certification Committee), Machine Safety Standard, Operator Safety Training, Safe Trails, ISMA (International Snowmobile Manufacturers Association), National Snowmobile Foundation and Tread Lightly! Inc. By being a member of these important snowmobiling associations, we recognize and support their efforts in sharing the responsibility in promoting the growth of our sport.
